

Donate

The NixOS infrastructure, development and events are funded by its users and sponsors.

Maintaining our build farm and binary cache is very expensive. We depend on your support to ensure the continuous operation and expansion of the NixOS infrastructure.

Please consider donating a small amount every month to contribute to sustainable funding. Donations are handled by a nonprofit organization, the [NixOS Foundation](#).

Donate using Open Collective

You can donate to the NixOS Foundation by using Open Collective:

[Contribute!](#)

Donate with SEPA bank transfer

The NixOS Foundation also accepts donations via SEPA bank transfer. Please send payments to:

Stichting NixOS Foundation, De Meern, The Netherlands

IBAN: NL45 KNAB 0732 3586 98
BIC: KNABNL2H

Please add your name and purpose (donation) in the description of the transfer. If you would like to support us with amounts above 2000 euro per year, please contact us at foundation@nixos.org, as this will have tax implications.

Acknowledgments

The Nix package manager was developed by [Eelco Dolstra](#) as part of his PhD research in the [TraCE project](#), funded by the [Jacquard programme](#) of the [Netherlands Organisation for Scientific Research](#) (NWO) and [SERC](#). The first prototype of NixOS was developed by [Armijn Hemel](#) as his master's thesis project. Hydra, the Nix-based continuous build system, was developed as part of the [LaQuSo Buildfarm project](#), funded by [NIRICT](#) and [LaQuSo](#).

The following companies and institutes have supported the development of NixOS and hosting for its infrastructure. We are very grateful for that! If you would like to support us as well, please contact [Rob Vermaas](#).
